Program Description

Parent involvement is a better predictor of academic success than standardized test scores.

In fact, when it comes to learning, parents serve as their child's FIRST teacher. Whether you're a parent, aunt, uncle, grandparent, or neighbor of a young child, YOU are a vital learning resource.

"Building the Preschool to Promise Pipeline" will model for parents and/or caregivers how to deliver exceptional learning opportunities to children right at home! Participants will walk away with user-friendly activities and supporting manipulatives that promote early literacy, early numeracy, and physical/social skills (the keys to kindergarten success). It doesn't take a license to be an effective mommy/daddy- teacher.

This 1.5 hour session will provide participants with:

- ✚ An understanding of school-readiness skills
- ✚ A description of kindergarten state standards
- ✚ A step-by-step guide to reading at home
- ✚ FUN games and prizes...ALL promoting early literacy and numeracy AT HOME!
- ✚ NEW!!!! Access to continued learning and support through our online course portal!

"Building the Preschool to Promise Pipeline" can be presented in the comfort of your school, church, or community center. The goal is to provide community outreach sessions in locations that are already established and frequented by the participants.
